## Convert to Self-Tailing

# Wincher

## Turns your winches into self-tailers

1

Immerse in hot soapy water for 5 mins until supple.

2

Stretch over top of winch with ribs facing downwards.

3

Entire 'Wincher' fits over winch - ribs face downwards & flange sits on winch lip.

4

For self-tailing, entire winch must be stacked with line.

5

To cleat, lock sheet into ribbed groove.
